

## **Regional Director Report – April 2025**

In last month's report, I talked about the ACBL Clubhouse, hosted by BBO, where you can play online with lots of special games that award gold, silver and red points in addition to regular black point games.

When you play in these online ACBL Clubhouse games on BBO, a large portion of your entry fee is returned to the face-to-face club where you play most frequently, so you are supporting your local club as well as enjoying the convenience of online play.

Here's the schedule of Clubhouse games on BBO:

<https://news.bridgebase.com/acbl-clubhouse-schedule/>

When you log into BBO, look for ACBL Clubhouse Games right under ACBL World.

There has been a new update to the ACBL Clubhouse:

The Clubhouse games are now under the umbrella of the ACBL Community Club which along with the online games includes special games that can also be played at your local face-to-face club.

Your local club can now run games that award red, silver or gold points concurrently on any week these special games are scheduled in the online Community Club. By allowing only face-to-face clubs and the ACBL Community Club to award glitter points, the ACBL is continuing its pledge to support your local face-to-face club.

All the details are online: <https://www.acbl.org/portfolio/community-club/>
